

SMUG PUG INK

Surface Pattern Design

CIARA PICKERING-FOOTE | SMUGPUGINK.COM

I create bold, joyful surface pattern designs that blend playful illustration with strong graphic structure and a ?love of color and storytelling. My work balances personality with versatility, making it well suited for a wide range of applications including fabric, stationery, wallpaper, gift wrap, and other product categories. Inspired by retro palettes and modern illustration, I focus on creating designs that feel expressive, approachable, and commercially thoughtful.

My surface design practice is intentionally flexible, allowing patterns to stand on their own or work together as part of a broader visual story. I enjoy collaborating with brands through both licensing and commission-based projects, creating artwork that aligns with their audience and product goals while maintaining a distinctive, illustration-forward voice.

Pug-Powered Patterns with Personality, Polish, & Play.
